2012 acura tsx repair manual pdf software version

It reminds you and your passengers to fasten your seat belts. Check the tire pressure monitor on the multi-information display and determine the cause (see page). If it is not a properly coded key, the indicator will blink, and the engine's fuel system will be disabled (see page). See page for information on operating the cruise control. For more information, see page . It comes on when the light switch is in either the off position. It flashes when VSA is active (see page). The indicator continues to flash for a while (approximately 1 minute), then stays on. This indicator comes on when you turn on the fog lights. When you press the hazard warning button, both turn signal indicators and all turn signals on the outside of the vehicle flash. Keeping an Acura TSX in operation in a running condition is easy with an Acura TSX repair manual. 61(P. This indicator normally comes on for a few seconds when you turn the ignition switch to the ON (II) position, and when the ignition switch is turned to the START (III) position. If you turn the ignition switch to the ON (II) position before fastening your seat belt, the beeper sounds and the indicator flashes. You will also see a "CHECK VSA SYSTEM" message on the multi-information display. This indicator comes on when you turn the ignition switch to the ON (II) position. 19 471472 Instrument Panel Indicators Seat Belt Reminder Indicator Malfunction Indicator Lamp Low Oil Pressure Indicator 60 2010 TSX Page 64 of 524 If it stays on after you have fully released the parking brake while the engine is running, or if it comes on while driving, it can indicate a problem in the brake system. This indicator will also come on when the light switch is in AUTO and the lights turn on automatically. CLIMATE CONTROL SYSTEM (P.145) (P.142) (P.124) (P.147) (P.130) ACCESSORY POWER SOCKET (P.156) USB ADAPTER CABLE AUXILIARY INPUT JACK (P.156) (P.166) (P.117) (P.174) (P.151) (P.70) POWER DOOR LOCK MASTER SWITCH (Unlocking Fuel Fill Door) DRIVING POSITION MEMORY SYSTEM BUTTONS (P.350) (P.201,211,261,272) (P.62) (P.62) SUPPLEMENTAL RESTRAINT SYSTEM INDICATOR (P. You will also see a "CHECK POWER STEERING SYSTEM" message on the multi-information display. Most of the time, this indicator comes on along with other indicators in the instrument panel such as the seat belt reminder indicator, SRS indicator, VSA system indicator, etc. If two or more tires are underinflated, call a professional towing service. This provides snappy acceleration and economy when driving at consistent speeds. The Acura TSX features many technology options usually reserved for much more expensive vehicles, such as voice-activated navigation, hands-free phone operation for up to six different devices, and a concert hall quality sound system that incorporates a CD/DVD player with surround sound speakers. Maintaining the Acura TSX is not difficult, and having a high quality Acura TSX repair manual gives the owner the ability to diagnose problems and make repairs correctly. You will also see a "CHECK TIRE PRESSURE" message on the multi-information display (see page). When the indicator comes on, there are about 2.8 U.S. gal (10.5) of fuel remaining in the tank. It comes on along with the VSA system indicator if there is a problem with the VSA system. If it comes on at any other time, it indicates that the passenger's side airbag has automatically shut off. When the needle reaches E, there is a very small amount of fuel in the tank. This indicator comes on when there is a system message on the multi-information display. This indicator comes on when the security system is set. This indicator comes on when you set the cruise control. You will also see a corresponding indicator(s) on the multi-information display to indicate which door and/or the trunk is not closed tightly (see page). It will then go off if you have inserted a properly coded ignition key. You will also see a "PASSENGER SIDE AIRBAG OFF" message on the multi-information display. A reminder chime will also sound when you open the driver's door. 3. 392 392 392 Instrument Panel Indicators VSA Activation Indicator Vehicle Stability Assist (VSA) System Indicator Instrument s and Cont rls 63 2010 TSX Page 67 of 524 This indicator normally comes on for a few seconds when you turn the ignition switch to the ON (II) position. The double overhead cam engine design features three valves per cylinder that are computer-controlled to optimize fuel and air at both the intake and exhaust ports. This indicator has two functions: It comes on when you turn the ignition switch to the ON (II) position. A beeper also sounds if you have not fastened your seat belt. 287) (P.373) (P.370) (P.289) (P.294) (P.301) HOMELINK BUTTONS 2010 TSX Page 62 of 524 The U.S. instrument panel is shown. For more information, see page . Take your vehicle to a dealer to have it checked. If either of you do not fasten your seat belt while driving, the beeper will sound and the indicator will flash again at regular intervals, and you will see a "FASTEN SEAT BELT" or "FASTEN PASSENGER SEAT BELT" message on the multi-information display. If this happens, have your dealer check the system as soon as possible. If you turn the ignition switch to the ACCESSORY (I) or the LOCK (0) position without turning off the light switch, this indicator will remain on. The indicator will stay on, but should go off after driving a short distance. Capitalizing on the legendary reliability and fuel economy Honda built in the United States, Acura vehicles bring the line of vehicles to a world-class standard. Upscale materials used in the interior gave drivers a luxurious experience, while the combination of safety features and technology provided one of the safest small cars in the United States. For more information, see page . This indicator comes on red if any door or the trunk lid is not closed tightly. If it does not go off, or comes back on again while driving, take the vehicle to your dealer to have it checked. Press the INFO button on the steering wheel (see page) to see the message (see page). The left or right turn signal indicator blinks when you signal a lane change or turn. You will also see a "FUEL LOW" message on the multi-information display. 115111 114 298 298 If equipped All models except Canadian TSX with 4-cylinder engine Instrument Panel Indicators Lights On Indicator High Beam Indicator Fog Light Indicator Cruise Main Indicator Cruise Control Indicator 66 2010 TSX Page 70 of 524 This indicator is in the fuel gauge. You will also see a "CHECK VSA SYSTEM" message on the multi-information display. This indicator normally comes on for a few seconds when you turn the ignition switch to the ON (II) position, and when the ignition switch is turned to the START (III) position. With the indicator on, the EPS may be turned off, making the vehicle harder to steer. If you turn the steering wheel to the full left or right position repeatedly while stopping or driving at very low speed, you may feel slightly harder steering in order to prevent damage to the steering box caused by overheating. 71 79 292 Low Fuel Indicator System Message Indicator Security System Indicator Instrument Panel Indicators Instrument s and Cont rls 67 LOW FUEL INDICATOR SECURITY SYSTEM INDICATOR 2010 TSX Two generations of the TSX were produced, using engines common to many Honda and Acura vehicles, in both a four-door sedan and a sports wagon body style. With sporty shifting performance from a range of manual and automatic transmissions, and more than 200 horsepower on tap, the Acura TSX was spirited to drive, while producing excellent fuel economy. If an indicator does not blink or blinks rapidly, it usually means one of the turn signal bulbs is burned out (see pages and). With this indicator on, your vehicle still has normal braking ability but no anti-lock function. 434 388 388 389 482 435 Low Tire Pressure/TPMS Indicator Turn Signal and Hazard Warning Indicators Instrument Panel Indicators 64 2010 TSX Page 68 of 524 This indicator normally comes on when you turn the ignition switch to the ON (II) position and goes off after the engine starts. 1. This indicator comes on briefly when you turn the ignition switch to the ON (II) position. You will also see a "FASTEN SEAT BELT" message on the multi-information display. The Institute for Highway Safety reports that the TSX had seven driver deaths for every million vehicles registered per year, one of the best ratings of any vehicle. Powered by a naturally aspirated inline four-cylinder engine, the TSX features Honda's Variable Valve Timing technology to improve fuel economy and increase performance. If this indicator begins to flash, there is a problem with the tire pressure monitoring system (TPMS). If it comes on and stays on any other time, or it does not come on when you turn the ignition switch to the ON (II) position, there is a problem with the VSA system. If you drive without releasing the parking brake, a beeper will sound, and you will also see a "RELEASE PARKING BRAKE" message on the multi-information display (see page). Acura is the American luxury automotive brand produced by Honda Motors. If it comes on at any other time, there is a problem in the electric power steering system. You will also see a "CHECK EMISSION SYSTEM" message on the multi-information display. If it is because of a flat tire, have the flat tire repaired as soon as possible. Instrument Panel Instrument s and Cont rls 59 FOG LIGHT INDICATOR SECURITY SYSTEM INDICATOR VEHICLE STABILITY ASSIST (VSA) SYSTEM INDICATOR ANTI-LOCK BRAKE SYSTEM (ABS) INDICATOR CHARGING SYSTEM INDICATOR ELECTRIC POWER STEERING (EPS) INDICATOR LIGHTS ON INDICATOR MALFUNCTION INDICATOR LAMP LOW OIL PRESSURE INDICATOR SEAT BELT REMINDER INDICATOR VEHICLE STABILITY ASSIST (VSA) ACTIVATION INDICATOR LOW FUEL INDICATOR IMMOBILIZER SYSTEM INDICATOR SIDE AIRBAG OFF INDICATOR SYSTEM MESSAGE INDICATOR HIGH BEAM INDICATOR CRUISE CONTROL INDICATOR DOOR/TRUNK OPEN INDICATOR LOW TIRE PRESSURE/TPMS INDICATOR (P.63) (P.66) (P.62) (P.66) (P.65) (P.67) (P.63) (P.19,60) (P.65) (P.67) (P. If this indicator comes on at any other time, there is a problem in the ABS. If this happens, take the vehicle to your dealer to have it checked. This indicator has two functions: If it comes on while driving, it indicates that one or more of your vehicle's tires are significantly low on pressure. For more information, see page . Without VSA, your vehicle still has normal driving ability, but will not have VSA traction and stability enhancement. This indicator comes on with the high beam headlights. You will also see a "CHECK AIRBAG SYSTEM" message on the multi-information display. It is a reminder to check the parking brake. Replace the bulb as soon as possible, since other drivers cannot see that you are signaling. If this happens, stop the vehicle in a safe place and turn off the engine. The Acura TSX was a compact executive sedan sold in the United States from 2007-2014. Differences for the Canadian models are noted in the text. If you do not fasten your seat belt before the beeper stops, the indicator stops flashing but remains on. 67) (P.66) CRUISE MAIN INDICATOR (P.66) PARKING BRAKE AND BRAKE SYSTEM INDICATOR (P.66) (P.60, 472) (P.61, 471) (P.60, 471) (P.61, 473) (P.64, 386) 2010 TSX Page 63 of 524 The instrument panel has many indicators to give you important information about your vehicle. If your front passenger does not fasten their seat belt, the indicator comes on about 6 seconds after the ignition switch is turned to the ON (II) position. If this indicator comes on when the engine is running, the battery is not being charged, and you will also see a "CHECK CHARGING SYSTEM" message on the multi-information display. An Acura TSX service manual provides the information needed to keep these excellent performing cars up and running. The Acura TSX is based on the Japanese version of Honda's CL-Series Accord and shares many of the superb features, such as fantastic fuel economy, reliable performance and industry-leading technology. This indicator will also alert you to a potential problem with your side airbags, passenger's side airbag cut-off system, side curtain airbags, automatic seat belt tensioners, driver's seat position sensor, or the front passenger's weight sensors. For more information, see page . It comes on as a reminder that you must refuel soon. These manuals provide detailed descriptions of the steps needed to do every job from basics like changing oil, air and fuel filters, to more complex tasks like rebuilding the engine. You will also see a "CHECK ABS SYSTEM" message on the multi-information display. This indicator also comes on with reduced brightness when the daytime running lights (DRL) are on (see page). 32 31 384 Instrument Panel Indicators Side Airbag Off Indicator Supplemental Restraint System Indicator Anti-lock Brake System (ABS) Indicator 62 U.S. Canada 2010 TSX Page 66 of 524 This indicator has three functions: It comes on as a reminder that you have turned off the vehicle stability assist (VSA) system.
